### **Global Link Logistics' Vegas Market Program 'Picks Up'**

Customized Approach to Transportation at Market Demonstrates Company's  
Logistics Expertise & Service

**LAS VEGAS, NV – January 28, 2008** – Global Link Logistics, the leading forwarder of furniture from Asia to the U.S., will demonstrate its expertise in freight forwarding and logistics services at Market by creating a unique shuttle program for its clients and invited guests. Using specially designed artwork outside and serving refreshments inside, Global Link's shuttle will offer attendees and media personalized transportation services while in Las Vegas for Market.

"We took our mission, 'Bringing Asia to Your Door,' a step further this Market," said Ed Feitzinger, senior vice president of Global Link Logistics. "Just like we customize our system for moving our client's furniture products from Asia to the U.S., we individualized our service for moving furniture people from Point A to Point B during the Las Vegas Market."

The free, invitation-only Global Link shuttle was created by Las Vegas graphics design artists to resemble an ocean carrier loaded with cargo containers on the open sea. Global Link will operate the shuttle for the first three days of Market during peak transportation hours: 7 a.m. to 10 a.m. and 4 p.m. to 11 p.m.

#### **About Global Link Logistics**

Global Link, a Golden Gate Logistics company, is a top ten Asia to North America ocean freight forwarder as well as the leading furniture freight forwarder from China to the U.S. The flagship of Global Link's success is its Single Point Customer Service. This direct contact and personalized service allows Global Link to support its customers' goals of reduced landed cost, speed to market and enhanced supply chain tracking and visibility for optimum operational performance.
