

**Unifi Expands the REPREVE® Product Offering with the Introduction of  
REPREVE Polyester Staple Fiber**

*100% Recycled Polyester Staple Fiber is the Newest Addition to the REPREVE Family*

**GREENSBORO, N.C. – January 16, 2009** - Unifi, Inc. (NYSE: UFI) continues to expand its REPREVE brand product offering with the launch of REPREVE polyester staple fiber. REPREVE polyester staple fiber is made from 100% recycled materials for use in spun yarns, including Open-End, Ring and Jet Spun.

Leveraging the knowledge and experience gained from the development and commercialization of REPREVE polyester and nylon filament products, Unifi is now able to offer a first quality 100% recycled polyester staple fiber. The new REPREVE product is designed to provide the industry with a reliable recycled staple fiber source that can be used as a "drop-in" replacement for fabrics and products currently made with virgin polyester staple fibers or other eco-friendly products.

"Based on the success that our customers have had using our REPREVE filament products, they began encouraging us to expand our recycled product offering to include polyester staple fibers," said Roger Berrier, executive vice president for Unifi. "In 2008, estimated global polyester staple fiber consumption was approximately 20 billion pounds. Based on this global consumption opportunity, Unifi accelerated the introduction of this new environmentally-friendly fiber as part of the company's mission to provide the industry with sustainable textile solutions."

Please visit Unifi at booth 62021 at the Outdoor Retailer Winter Market, being held January 22-25, 2009 at the Salt Palace in Salt Lake City, Utah. Or to learn more about REPREVE, visit the new website [www.repreve.com](http://www.repreve.com).

**CAUTIONARY STATEMENT ON FORWARD-LOOKING STATEMENTS**

Certain statements included herein contain forward-looking statements within the meaning of federal security laws about Unifi, Inc.'s (the "Company") financial condition and results of operations that are based on management's current expectations, estimates and projections about the markets in which the Company operates, as well as management's beliefs and assumptions. Words such as "expects," "anticipates," "believes," "estimates," variations of such words and other similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions, which are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in, or implied by, such forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's judgment only as of the date hereof. The Company undertakes no obligation to update publicly any of these forward-looking statements to reflect new information, future events or otherwise.

Factors that may cause actual outcome and results to differ materially from those expressed in, or implied by, these forward-looking statements include, but are not necessarily limited to, availability, sourcing and pricing of raw materials, pressures on sales prices and volumes due to competition and economic conditions, reliance on and financial viability of significant customers, operating performance of joint ventures, alliances and other equity investments, technological advancements, employee relations, changes in construction spending, capital expenditures and long-term investments (including those related to unforeseen acquisition opportunities), continued availability of financial resources through financing arrangements and operations, outcomes of pending or threatened legal proceedings, negotiation of new or modifications of existing contracts for asset management and for property and equipment construction and acquisition, regulations governing tax laws, other governmental and authoritative bodies' policies and legislation, and proceeds received from the sale of assets held for disposal. In addition to these representative factors, forward-looking statements could be impacted by general domestic and international economic and industry conditions in the markets where the Company competes, such as changes in currency exchange rates, interest and inflation rates, recession and other economic and political factors over which the Company has no control. Other risks and uncertainties may be described from time to time in the Company's other reports and filings with the Securities and Exchange Commission.
